

SHAZAM FOR THE REFERENCES FLYING OVER YOUR HEAD.

Refer listens for the line, finds the source, and gets you back into the conversation.

THE MOMENT WE ALL KNOW

Everyone laughed.

You smiled half a second late.

It is a tiny moment. But it says: everyone
else belongs to this conversation except
you.

No one can keep up with every context switch.

73%

of U.S. teens use
YouTube daily

57%

use TikTok
daily

74%

say social media
helps them
feel connected to
friends

31%

also say it can make
them
feel excluded by
friends

The opportunity is not more content. It is faster context.

Sources: Pew Research Center, 2025. U.S. teens ages 13–17; survey fielded Sept.–Oct. 2024.

ONE TAP. ONE LINE. ONE ANSWER.

Refer turns “wait, what?” into “ohhh, I get it.”

01

SAY IT

Tap Listen or type the quote
you caught.

02

WE FIND IT

Match the phrase, source,
year, and exact moment.

03

GET THE JOKE

See the context and stay in
the conversation.

VOICE-FIRST WHEN YOU WANT IT. TYPED SEARCH WHEN YOU DON'T.

**Designed for the moment,
not a research project.**

**WAIT—WHAT
WAS THAT?**

" type the line..."

LISTEN

CAUGHT!

**THE LIMIT DOES
NOT EXIST**

MEAN GIRLS • 2004

"The limit does not exist!"

Find the source. Understand the context. Open the clip.

The reference can happen anywhere.

FRIENDS

Catch the meme without stopping the story.

CAMPUS

Decode the quote before the group chat moves on.

WORK

Understand the shorthand in meetings and Slack.

WATCH PARTIES

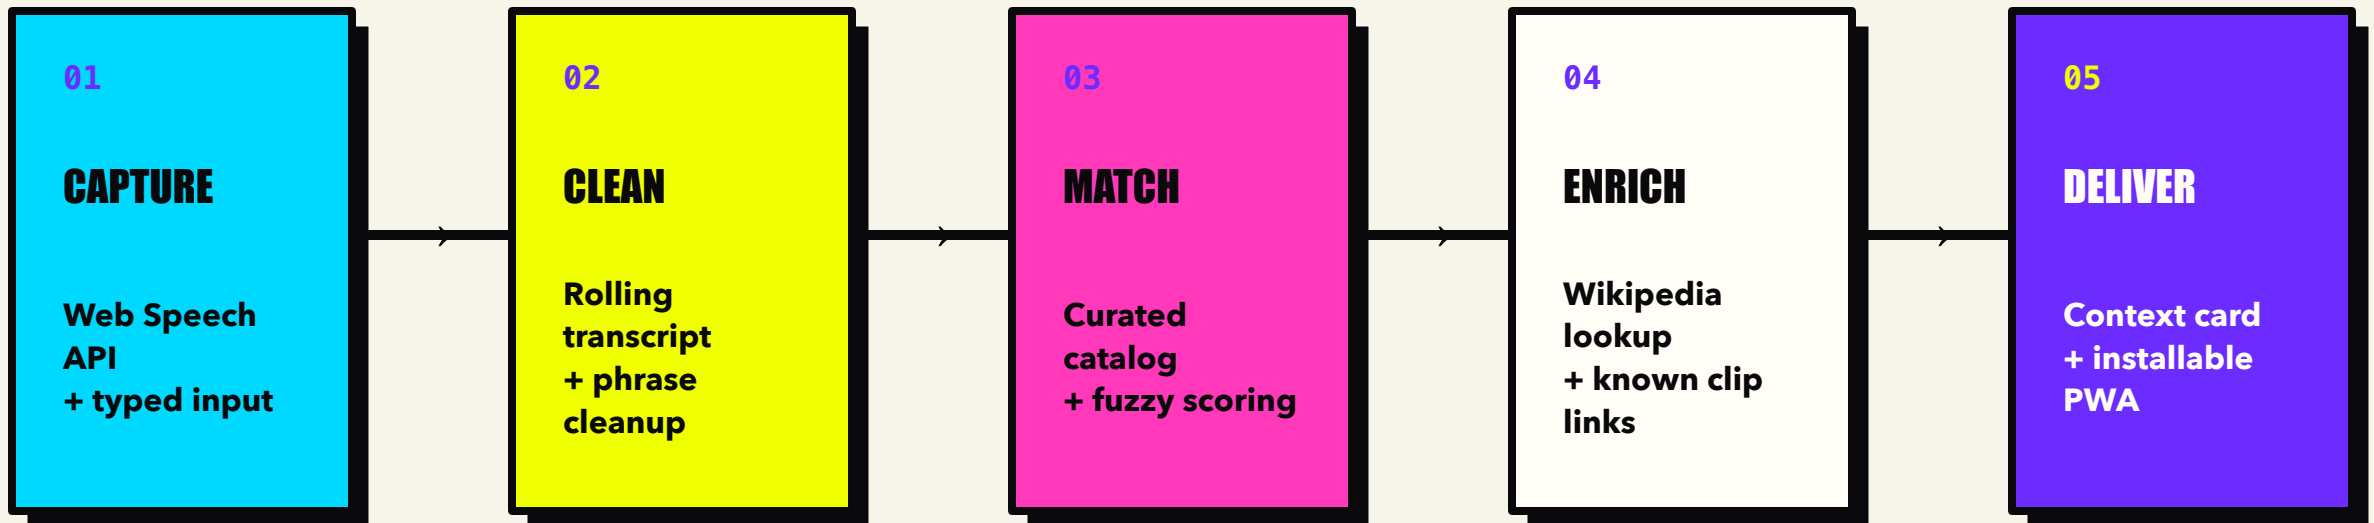

Turn every callback into a deeper moment.

If culture becomes conversational shorthand, Refer has a job to do.

THE MVP IS ALREADY TECHNICALLY REAL

Fast enough for the room. Simple enough for the browser.

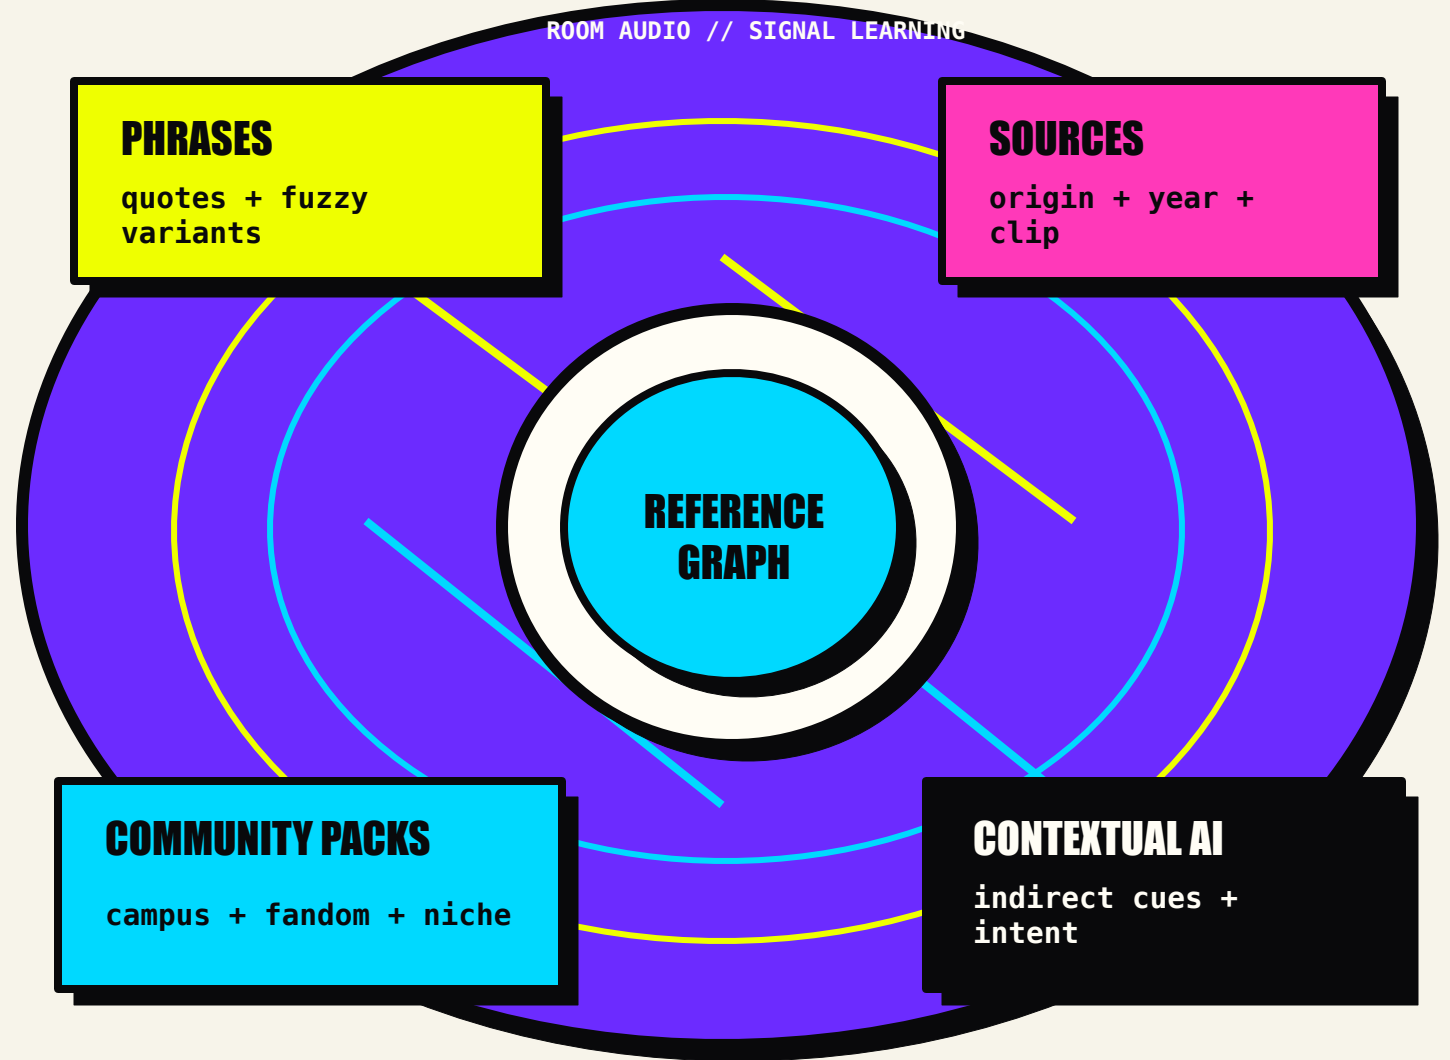

PRIVACY BY DEFAULT

The microphone starts only when the user turns listening on.

Every catch strengthens the signal.

A living reference graph connects what people say to where it came from—and what it means now.

MORE CATCHES → BETTER CONTEXT

Start with exact moments. Grow into ambient understanding.

NOW

PROVE THE HABIT

Voice + typed search
Curated references
Clips and context

NEXT

UNDERSTAND MORE

LLM-backed classifier
Indirect + multilingual cues
Confidence controls

THEN

GO WHERE TALK HAPPENS

Meetings and calls
Browser extension
Mobile companion

The product stays simple even as the understanding gets smarter.

THE ASK

NEVER FAKE THE LAUGH AGAIN.

Try Refer in one real conversation.
Catch one thing you would have missed.
Then tell us what the next reference pack should know.

Built for the moment when culture becomes conversation.
